

Better learning. Lasting impact.

1

Equip educators

Help university staff integrate gamification into their teaching.

2

Engage students

Pilot interactive lessons on climate change and sustainability.

3

Promote inclusion

Address diverse learning needs, including those of vulnerable groups.

4

Extend the impact

Develop adaptable resources for future postgraduate courses.

5

Connect universities

Share methods and experience through a European network.

For educators, students, universities and sustainability stakeholders.

Take the next step.

Find project resources and updates, discover activities, or contact the team.

education

Play. Learn. Change.

Digital Serious Games for Climate Change Education

Game-based learning for a sustainable future.

01 Nov 2024 — 31 Oct 2026

Co-funded by
the European Union

Climate education through play.

GAME4CHANGE is an Erasmus+ cooperation partnership bringing serious digital games and gamification into higher education.

The project combines environmental education with interactive learning to help students and educators engage with climate change and sustainability.

Cooperation partnerships
in higher education

Tools for active learning.

01 Modular curriculum

Interactive lessons on climate change and sustainability.

02 Educator's handbook

Practical guidance, good practice and gamification strategies.

03 Digital tools

E-learning modules, mobile apps and an AI-powered proficiency assistant.

04 European network

Shared resources, methods and experience across universities.

DEVELOP • PILOT • REFINE • SHARE

University pilots, workshops and focus groups help students test and improve gamified lessons.

Working together.
