

5-7 DECEMBER 2025 · ATHENS, GREECE

Research takes a wider stage.

At the 3rd Open-Air Cities International Conference, GAME4CHANGE shared findings from focus groups and online surveys across six European countries. Two contributions connected game-based climate education with wider questions of sustainability and communication, bringing the project's research into an international academic discussion.

7 NOVEMBER 2025 · ROTTERDAM + ONLINE

Building the next phase together

At the second transnational project meeting, partners reviewed research, the pedagogical model, digital platform requirements and communication. They also aligned reporting, evaluation and upcoming activities, linking the educational approach with the next steps in tool development.

INFO DAY • INSTITUTE OF JOURNALISM, KYIV

28 MARCH 2026 • KYIV, UKRAINE

Climate learning, face to face.

At the Open Day of the Educational and Scientific Institute of Journalism, Taras Shevchenko National University of Kyiv, GAME4CHANGE introduced students, academics and media representatives to serious games for climate education. The event connected interactive learning with environmental communication and the project's mission to equip educators and engage students.
